SONOS

A seamless listening experience, everywhere

Enjoy the unmatched Sonos experience on WiFi, and stream audio directly from your smartphone, tablet, or computer using Bluetooth.

Compare WiFi and Bluetooth

Not just easy — automatic

Roam automatically connects to your WiFi network at home and pairs with your device when you're away. So the only thing you have to think about is what to play.

# Unbelievable sound

Precision-engineered acoustics deliver incredible clarity and depth, defying all expectations for a speaker this small.

Exclusive colors

Express yourself with bold hues you'll only find here.

Tunes itself like magic

Using automatic Trueplay tuning technology, Roam adapts the sound for your surroundings and content.

Ready to soundtrack your day

The built-in rechargeable battery powers up to 10 hours of continuous playback at moderate volumes.

Estimate for 50% volume while streaming over WiFi.

## Refined design

Roam blends beautifully into every corner of your home, and the lightweight ergonomic design is easy to handle on the go.

## Rugged durability

Featuring shock-absorbent materials and an IP67 dust and water resistance rating, Roam is primed for every type of weather and terrain.

\* Speaker can be submerged in one meter of water for up to 30 minutes.

## Freedom of control

## Sonos app

Connect all your streaming services, discover new music on Sonos Radio, and personalize settings.

## AirPlay 2

Send sound directly from your iPhone, iPad, or Mac, then ask Siri to turn it up from your device.

## Buttons

Just press to play, pause, skip, repeat, turn off the microphone, and manually switch to Bluetooth.

## Bluetooth

Play sound from your smartphone, tablet, or another Bluetooth-enabled device paired with the speaker.

## © Sonos Voice Control

Say to play

Play music and control your system with hands-free ease and unmatched privacy.

Bc

## Amplifiers

Two Class-H digital amplifiers have been perfectly tuned to the speaker's unique acoustic architecture.

## Tweeters

One tweeter creates a crisp high-frequency response.

## Midwoofers

One midwoofer ensures faithful playback of mid-range frequencies and maximizes low-end output.

## Microphones

The far-field microphone array uses advanced beamforming and multi-channel echo cancellation for quick and accurate voice control and automatic Trueplay tuning.

## Adjustable EQ

Use the Sonos app to adjust bass, treble, and loudness.

### Automatic Trueplay

This software continuously adjusts the speaker's sound for its environment and audio content.
